

Let the infidel rot

Drowned in the sea of a thousand deaths
Desperate and cruelly abused
They are prepared to breathe their last breaths
Hope is the energy infused

Murdered and slaughtered back in their towns
Just 'cause of a different God
Losing their dignity, everything they have
Left in their places to rot

Murderers
Lunatics
Butchers
Fanatics

Enslaving girls to secure their breed
Getting rid of cultural assets
Back in the Dark Ages, they are indeed
Blindfolded fear no regrets

Murderers
Lunatics
Butchers
Fanatics

They are going to reach out for your life
They wanted to rape you with their knives
Scourge of humanity
Pestilence and death
Torture pain repression
Persecution bloodbath

Decapitation, maiming, slavery and rape
'cause you don't believe in their God
Decapitation, maiming, slavery and rape
Let the infidel rot

No oil involved, no need to awake
No rush to stop them soon
Just human lives are at stake
But are we all immune

You're full of shit
Sick, jerks, fucking pricks

Decapitation, maiming, slavery and rape
'cause you don't believe in their God
Decapitation, maiming, slavery and rape
Let the infidel rot
