

Inner Nightmare

He wanted to die and I should do it
It was a meeting with us and the dead
He believed in life after death
And I believed in the dark power
I wanted to see him die
Watch his last breath

The liquid death, bright and clear
Reflects the world on the other side
He should go quietly like a sleeping dream
He wanted to go like for a little walk

Inner nightmare - greed and shame
Inner nightmare - hand in hand
He wanted me to kill him
He wanted me to eat him

The tip of the syringe
Kissed him on the cheek
But it wasn't quite like a dream

How does it feel
to be strangled by a snake
How does it feel
When your bones break

the spider's poison
Decomposes the victim
And liquefies the intestines
The pain came like a Tsunami
Unstoppable and powerful
He tried to get away

Inner nightmare - greed and shame
Inner nightmare - hand in hand
He wanted me to kill him
He wanted me to eat him

His screams faded out
The endless second of pain

I feel terrible, I feel great
It changed my life it changed me
The smacking sound of a split body
Fills the room like a rising flower
The limbs that served him
Looked like a quirky doll
The smell of blood and bowels
Make me hot and happy
Two worlds are fighting inside me

That's heaven and hell
His heart tastes so bloody
It was warm and heavy
I vomited, but I kept eating
I hate it, I love it

Inner nightmare - greed and shame
Inner nightmare - hand in hand
He wanted me to kill him
He wanted me to eat him
